

# OUR GRAND-MÈRES TAUGHT US THAT IMITATION IS THE SINCEREST FORM OF FLATTERY.

We're proud to be often imitated, but never duplicated.

Mango Languages' unique blend of **linguistic science**, **sky-high quality standards**, and **innovative products** has made us the top choice for libraries and schools. And with all these unique reasons to love Mango, can you blame them?

## A methodology that works.

Mango's language-learning methodology is PhD-created and linguist-approved. We keep learning organized, practical, and most importantly: it actually works.

## Phonetic pop-ups and semantic color mapping.

Simple but genius, phonetic pop-ups help users sound out even the scariest-looking words in their new language. And our not-so-secret code? We show learners the relationship between words in their native language and their new language with color coding. Why it's awesome: learners can start to understand grammar in their new language at a glance.

## Learning through movies.

Your users will love learning with the first and favorite film-based language and culture-learning system. Each film offers hours (and hours!) of learning with a methodical breakdown of each line of dialogue from the film, as well as our fan-favorite grammar and culture notes.

## Specialty courses.

Unique course content for your unique learners, from a Brazilian Portuguese course about soccer, to a German course about Oktoberfest, and even a course on Pirate.

### Mobile learning.

Our free mobile apps let your learners continue learning on-the-go: at home, on a plane, or at a football game.

### Pleasing to the eye and the ear.

Our native speaker narrators sound so pleasant and friendly, you just might want to become their BFF. And with beautiful, culturally relevant imagery, learners feel immersed in their new language and culture.

### The coolest swag around.

Bright, trendy, and attention-grabbing promo materials will help you spread the word about your resources to your campus or community.

### A hero you deserve.

Our advocate team not only helps you get the most out of your Mango subscription, but helps you spread the word about all of your resources throughout your community.

### Rave-worthy customer service.

Give our customer service team a call, or have your learners do the same. Our direct support frees you up to work on more world-changing endeavors.

### Millions of users.

With millions of happy users across the globe and innovative products to keep them going, it's no wonder so many libraries and schools love Mango
