QZZR for Fun Quizzes at Your Library!

Cara Berg, Reference Librarian, Co-Coordinator of User Education, William Paterson University, bergc1@wpunj.edu
Presented by LibraryLinkNJ, TechFest 2017 at Parsippany-Troy Hills Public Library, Wednesday, January 11, 2017

Basic Info:

QZZR (http://www.qzzr.com) is an online site for users to make quizzes for use anywhere! The quizzes are easily shared via link or social media.
The price structure is tiered: this presenter used the Basic (free!) Account.

Steps for Excellent Quiz Creations:

Create an account → Design a quiz → Share quiz via link and/or social media → View results!

Ideas for You and Your Library:

All libraries can benefit from using QZZR for their students and patrons.

Outreach- Use it to make patrons aware of new or existing library services, to find out what your patrons know about the library, or anything else you can think of! Sit at a table near the Circulation Desk, have a table with the quiz at a community event, or share on social media!

Assessment- Test your patrons or students before, during, or after a class! You can embed the link, or send a link to your students. They can see the results come in as they take the quiz, and you will have instant assessment results!

Enjoy quizzing!
