Technology Accessibility

Presented by LibraryLinkNJ, *TechFest 2015*

June 3, 2015 at Monroe Township Public Library

Elizabeth Burns, Youth Services Consultant, New Jersey State Library Talking Book & Braille Center, www.njsltbbc.org, eburns@njstatelib.org, 800-792-8322

Font Size: This is Verdana 14. Verdana 16. Verdana 18.

APH (American Printing House for the Blind) Guidelines for Print Document Design at www.aph.org/research/lpguide.htm

NLS Reference Guide, Materials in Large Print at www.loc.gov/nls/reference/guides/largeprint.html "Large-print materials are most commonly available in 16- to 18-point type. The minimum size for large-print materials is 14-point type, which is the size used by this reference guide."

VisionSim™ from Braille Institute, www.brailleinstitute.org/digital/mobile-applications.html

Ebook Reading Apps. All have some level of customizable formatting to change font, size, contrast, and lighting. APH recommends sans serif typefaces like APHont, Antique Olive, Tahoma, Verdana, and Helvetica.
