ARGOPREP
LIBRARIES

ArgoPrep's Online Digital Platform for Libraries

- Access over 80+ eBooks

- Watch 500+ K-8 Math and Language Arts Videos

- 30,000+ Practice Questions
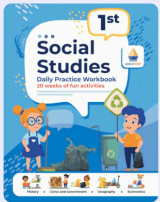

ARGOPREP

Let's dive deeper into the points listed above!
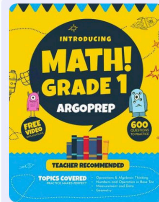

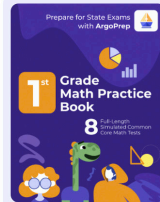

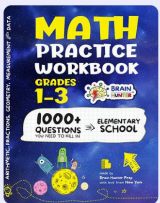

- Access over 80+ eBooks

ArgoPrep has 80+ workbooks to support Math, Language Arts, Science, and Social Studies needs.

Library members will immediately be able to access every digital workbook in our library, making it easy to find materials in one place no matter what they teach from Kindergarten through 8th grade. We offer download & print options as well.

ARGOPREP

- *Watch 500+ K-8 Math and Language Arts Videos*

At ArgoPrep, we know how important it is to engage students. With over five hundred engaging and comprehensive video lessons, you can be confident that your students are getting what they need to succeed.

The best part? Students can check their own answers by following along with videos that walk students through the problem. Use these lessons, videos, and workbooks in your classroom to nail differentiation at all levels!

Unit 1 - Place Value & Rounding
Video lectures

Lesson 1 - Base 10 Place Value   📤 Select to assignment

Multiplying by 10

$2 \times 10 = 20$

hundreds 100	tens 10	ones 1

▶ Lesson 1 - Base 10 Place Value

▶ Lesson 2 - The Role of Zero

▶ Lesson 3 - Writing Numbers

▶ Lesson 4 - Inequalities Using Place Value

▶ Lesson 5 - Rounding

▶ Lesson 6 - Adding Using a Place Value Chart

▶ Lesson 7 - Subtracting Using a Place Value Chart

▶ Lesson 8 - Word Problems Using Place Value

Why ArgoPrep?

- Our platform is designed for all students.

ArgoPrep has received the **Learner Variability: Product Certification** from Digital Promise.

ArgoPrep keeps every student in mind – giving educators peace of mind when it comes to providing optimal resources and options for each student. We have built specific tools and features that help different types of learners.

On the next page you can find an overview of just some of the tools we have built to help various types of learners.

ARGOPREP

Tools and Features	
Offline Access via "Download"/"Print" Option	It's important to be aware that not every student has access to reliable wi-fi at home. ArgoPrep offers educators and students the option to download worksheets or workbooks for easy offline access to complete their work.
Badges, Animations, Point System	ArgoPrep deploys various features to keep students motivated while learning. This includes unlocking badges, earning points when completing assignments, and receiving animated feedback while working on a quiz.
Video Explanations to Practice Questions	The video explanation option offers students a different format of learning compared to just the traditional TEXT answer explanation. ArgoPrep offers both, however, this specific tool allows for learners who prefer visual and auditory learning. This option is available for both the learner and educator.
Text To Speech	ArgoPrep quizzes and questions come fully supported with a text to speech button where learners can hear the practice problem read out loud. Learners with IEP or 504 Plan may benefit from the text to speech option.
Playback Speed, Full-Screen, Volume Toggle	ArgoPrep offers various tools to students when it comes to watching our video lessons. Students have the option of watching the video at a slower pace or the option to speed it up. Additionally, students are able to control the volume levels as well as watch the videos as a full-screen option.
Flexibility of individual choice task completion	Student choice and self-regulation are two components of social and emotional learning. ArgoPrep implements various features to provide learners with as much discretion and autonomy as possible when using our platform to complete assignments. Some specific examples include: 1) We do **not** restrict the sequence or timing for completion of any task (whether it's taking a quiz or watching a video lesson). 2) Students can answer quiz questions in any order. 3) Students have the option of using various tools to gather information (for example – turning off audio or using the text-to-speech option or using the video explanation button).
