Research Databases

**AUTHORITATIVE, EXCLUSIVE CONTENT
IN CORE SUBJECT AREAS**

Our critically acclaimed databases, covering a variety of core subject areas, are perfect for any institution. Users can be confident that the wide range of sole-source material included in our online products has been written by experts and vetted by our editorial team, rather than aggregated from other sources. Plus, regular updates keep our databases current, fresh, and accurate. For more than 80 years, Facts On File has been a trusted name in reference publishing—and that reputation extends to our wide array of online reference products. Correlated to Common Core, state, national, and other major educational standards.

Streaming Media

**COMPREHENSIVE, MULTISUBJECT
STREAMING VIDEO AND MEDIA**

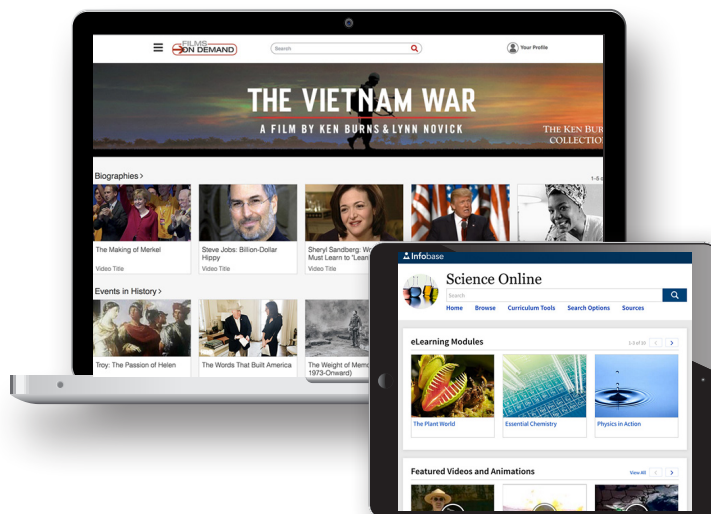

Expand the presence of your library—on-site and off—with Infobase's streaming video and media collections. With unlimited access to hundreds of thousands of full-length videos and video clips (and growing!), educators can stimulate and reinforce their lectures and classes, students can find inspiration and materials for their research, and librarians can encourage community building and enhance library programming. Correlated to Common Core, state, national, and other major educational standards. Plus, interactives, audio recordings, and other media resources are available in select products.

Source Reference

**YOUR ONE-STOP SHOP FOR RESEARCH AND
INFORMATION LITERACY SKILL DEVELOPMENT**

Source Reference is an integrated research and information literacy skill development platform containing curated reference content, instructional videos, and tutorials—the ideal starting point for any research project or information literacy course. This award-winning “pre-search” database can help your students start their research while building better research skills.
