
STRATEGIC PLAN
FY18 – FY20

Approved by the LibraryLinkNJ Executive Board at their meeting on October 19, 2017

LibraryLinkNJ — The New Jersey Library Cooperative — and its services are funded by the New Jersey State Library, which is responsible for the coordination, promotion and funding of the New Jersey Library Network.
Our mission

We connect all New Jersey’s libraries to each other and the resources they need to serve their communities.

We have created the following set of principles to guide our thinking and action in implementing the LibraryLinkNJ Strategic Plan:

- We focus on our multi-type members, their communities and their perspectives.
- We value diversity and inclusion and support our members in putting these values into action.
- We practice open, transparent communication with our members.
- We provide guidance to our member libraries as they adapt to evolving ideas about the place libraries of all types hold in the culture at large.
- We offer opportunities for collaboration and connection in order to counterbalance the isolation that some libraries may experience.
- We are prepared to meet the challenges and opportunities of the future through adaptive planning and securing multiple funding streams.
- We assist our members in making the best possible decisions for their communities, understanding that success for each library is uniquely defined.
- We invest in developing the leadership skills of our members, our Board, and our staff to strengthen our organization at all levels.
- We help libraries respond strategically to the challenges and opportunities they face.
- We return our budget to our members via our services and new initiatives.
